DETAILED ACTION

1. The Amendment filed by Applicant on 11/21/2006 has been entered.

2. Claims 2, 4 and 6 have been canceled.

3. New claims 8-12 have been added.

Response to Amendment/Arguments

4. Applicant's amendment and arguments filed on 11/21/2006 have been fully considered and they are found unpersuasive.

5. The rejection of claims 1 and 3 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is withdrawn.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 1713

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1, 3, 5 and 7-12 remain rejected under 35

U.S.C. 102(b) as being anticipated by Hentges et al., WO

95/12623. Hentges teaches a hydrogenated hydrocarbon resin

suitable as tackifier where in the resin has a softening point

of from 40 to 120°C. First, Hentges discloses a broad softening

point range that covers both hydrogenated and non-hydrogenated

ranges of the present claims. Hentges indirectly teaches the

softening point range for the non-hydrogenated resins when the

softening point range for the hydrogenated range is disclosed.

Second, dicyclopentadiene is used in one instance as a chain

transfer agent. However, in performing as a chain transfer

agent it also acts as a monomer. In addition, Hentges teaches a

Heartcut Distillate containing dicyclopentadiene.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

9. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this

Art Unit: 1713

action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
